

GREEN'R INDUS

For a GREEN'R life !

For ecological floor and surface cleaning with the guarantee of an impeccable result.

The GREEN'R range contains ingredients which guarantee effective products whilst respecting the environment.

Meeting the requirements of the **NORDIC SWAN ECOLABEL** necessitates compliance with extremely strict specifications, rigorous performance criteria, ultimate aerobic and anaerobic biodegradability and 100% recyclable packaging. We all have a responsibility to respect the environment.

USE :

GREEN'R INDUS is based on new formulation technologies. This eco-friendly degreaser ensures efficient cleaning of all heavily soiled floors. It is suitable for use in garages, on industrial floors, in communal and other high traffic areas.

It quickly lifts mineral oils and organic soiling and is particularly effective on tyre or wheels tracks, shoe prints and for cleaning rubber seals.

Use an appropriate scrubber / drier or other floorcare machine. For automatic dosing only.

Powerful degreaser which works at reduced dosing levels for regular maintenance of hard and tiled floors.

GREEN'R INDUS has a minimal impact on the environment but has a performance superior to many of the leading brands.

RECOMMENDED DOSAGE :

- Determination of reference:**
- Use a 0.5% solution for routine maintenance
 - Use a 3% solution for restoration of surfaces. Higher concentrations may be needed on grossly soiled surfaces.

LEGISLATION :

Complies with legislation regulating the cleaning of equipment and containers in contact with foodstuffs.

CHARACTERISTICS :

Yellow liquid
 pH (100%) = 14
 pH about 11.3 to 10 g / l
 Relative density 1.085 (20 ° C)

PACKAGING :

SA0036400 2 x 5L
 SA0036410 20L
 SA0036420 200L

▶ **Ultra degreaser**

▶ **Renovates heavily soiled floors**
