

MIDA AGRI 830 POST RED

Acid dermoprotective disinfectant to protect the udder after milking

DESCRIPTION & APPLICATION

MIDA AGRI 830 POST RED is a protective product intended for the treatment of the udder after milking based on lactic acid in combination with substances with emollient, rehydration, re-epithelialization and skin protection properties. This product can also be used for the external treatment of other parts of the animal's body.

MIDA AGRI 830 POST RED is ready for immediate use in the form of a red colored viscous solution as a post-milking soaking treatment. The presence of protective ingredients such as glycerin and other specific co-formulations also guarantees sufficient skin protection and guarantees softness even under adverse conditions.

MIDA AGRI 830 POST RED is also used for the external treatment of the udder of other milk animals, such as sheep, goats, etc.

Basic characteristics of the product:

- preparation for immediate use
- contains lactic acid, emollient and softening ingredients and essential oils
- thick viscous non-flowing preparation

USE INSTRUCTIONS

MIDA AGRI 830 POST RED is recommended for immediate use for the treatment of the udder of milk cows. The teats are gradually immersed after each milking in a special container with the original preparation without any dilution.

In order to avoid possible problems with product residues in milk, it is advisable to wash the teats and udders before the next milking in order to remove product residues and possible impurities.

PRODUCT CHARACTERISTICS

Composition	Contains lactic acid, glycerin, conditioners
Appearance	Opalescent liquid
Colour	Red
Odour	Characteristic of the lactic acid
pH (100%, 20°C)	3,45 ± 0,25
Density	1,03 ± 0,05 g/cm ³ (20°C)
Dynamic viscosity	≈ 3250 cP ± 250 cps

MATERIAL COMPACTIBILITY

When **MIDA AGRI 830 POST RED** is used according to the recommended use instructions, then **MIDA AGRI 830 POST RED** can be used on commonly used materials.

ENVIRONMENT

MIDA AGRI 830 POST RED does not contain any chlorine and hence there is no risk of the formation of organic adsorbable halogens (AOX).

The surfactants of **MIDA AGRI 830 POST RED** comply with the European Union Directive EU648/2004 on the biodegradability of surfactants.

SAFETY

Never mix **MIDA AGRI 830 POST RED** with other products. Carefully read the material safety data sheet of **MIDA AGRI 830 POST RED** and follow the chemical handling and disposal guidance.

STORAGE

Store **MIDA AGRI 830 POST RED** in its original packaging between 5°C and 30°C. Do not expose to direct sunlight. The expiry date is 24 months from date of manufacture.

PACKAGING

MIDA AGRI 830 POST RED can be available in CAN, DRUM and IBC.
