

MIDA FLOW CD-S

Acidic liquid product for the production of chlorine dioxide in special equipment for the food and beverage industry

DESCRIPTION & APPLICATION

MIDA FLOW CD-S is an acidic liquid product especially designed as a raw material for the production of chlorine (chlorine dioxide – ClO₂) in all areas of the food and beverage industry.

USE INSTRUCTIONS

MIDA FLOW CD-S is used in combination with the product **MIDA FLOW CD-L** to produce chlorine dioxide in special generators. When the mixing process is necessary to closely follow the manufacturer's instructions specific special equipment for the development of ClO₂.

PRODUCT CHARACTERISTICS

Composition	Contains hydrochloric acid 31%, water.
Appearance	Clear liquid
Colour	Colourless
Odour	Characteristic of the product
pH (1%)	± 2,5
Density	± 1,20 g/cm ³ (20°C)
Solubility	Miscible in water in all proportions

SAFETY

Never mix **MIDA FLOW CD-S** with other products. Carefully read the material safety data sheet of **MIDA FLOW CD-S** and follow the chemical handling and disposal guidance.

STORAGE

Store **MIDA FLOW CD-S** in its original packaging between 5°C and 30°C. Do not expose to direct sunlight. The expiry date is 24 months from date of manufacture.

PACKAGING

MIDA FLOW CD-S can be available in CAN and DRUM.
