

MIDA FOAM 160 AT

Sanitizing alkaline foam detergent
with alkylamine compounds for the food industry

DESCRIPTION & APPLICATION

MIDA FOAM 160 AT is a liquid foam detergent especially for the removal of the organic substances, also in the presence of hard water, in food processing areas.

MIDA FOAM 160 AT is a highly alkaline product combining high foaming surfactants, sequestrants, solvent and alkylamine resulting in a highly effective sanitizing and disinfecting action.

MIDA FOAM 160 AT does not contain chlorine components.

USE INSTRUCTIONS

MIDA FOAM 160 AT is used at concentrations between 0,5-5,0 % (v/v) at a temperature of 30-60°C depending on the degree and type of soiling to be removed and the water hardness. After a contact time of at least 15 min rinse thoroughly after use (within 1 hour) and ensure that all product residues and soil particles are removed.

MIDA FOAM 160 AT can be used in the manual sanitizing of small equipment. In this application use **MIDA FOAM 160 AT** in solution at concentrations between 0,5-5,0 % (v/v) at a temperature of 30-40°C depending on the soil present.

PRODUCT CHARACTERISTICS

Composition	Contains caustic soda, surfactants, sequestrants, solvent
Appearance	Clear liquid
Colour	Pale yellow
Odour	Characteristic
pH (1%)	± 12,0
Density	± 1,10 g/cm ³ (20°C)
Solubility	Miscible in water in all proportions

MATERIAL COMPACTIBILITY

When **MIDA FOAM 160 AT** is used according to the recommended use instructions, then **MIDA FOAM 160 AT** can be used on materials commonly used in the food industry, with the exception of soft metals like aluminium.

ENVIRONMENT

MIDA FOAM 160 AT does not contain any chlorine and hence there is no risk of the formation of organic adsorbable halogens (AOX).

The surfactants of **MIDA FOAM 160 AT** comply with the European Union Directive EU648/2004 on the biodegradability of surfactants.

SAFETY

Never mix **MIDA FOAM 160 AT** with other products. Carefully read the material safety data sheet of **MIDA FOAM 160 AT** and follow the chemical handling and disposal guidance.

STORAGE

Store **MIDA FOAM 160 AT** in its original packaging between 5°C and 25°C. Do not expose to direct sunlight. The expiry date is 12 months from date of manufacture.

PACKAGING

MIDA FOAM 160 AT can be available in CAN, DRUM and IBC.

Biocides reliably use. Before use always read marking and product information!
