

MIDA IDEAL

Neutral foam detergent for manual cleaning
for the food industry and institutional hygiene

DESCRIPTION & APPLICATION

MIDA IDEAL is a neutral liquid foam detergent especially developed for the manual cleaning of tools and small equipment (for example) cutting equipment, slicing, wrapping and filling machines and other equipment, machines, tools and instruments) in food processing areas.

MIDA IDEAL is a product based on neutral pH with a high level of anionic surfactants, but which rinses easily without leaving marks on the cleaned surfaces.

MIDA IDEAL can be used also in hard water conditions – treated surfaces are after use bright and shiny.

USE INSTRUCTIONS

MIDA IDEAL is used at concentrations between 0,1-1,0 % (v/v) at a temperature of 30-40°C depending on the degree and type of soiling to be removed and the water hardness. Rinse thoroughly after use and ensure that all product residues and soil particles are removed.
