

# Mida SAN 325 DA

Acid foam disinfectant

## DESCRIPTION & APPLICATION

**MIDA SAN 325 DA** is a liquid, lactic acid based foam disinfectant with deterative properties for disinfection of surfaces and equipment in food industries.

**MIDA SAN 325 DA** is a broad spectrum disinfectant and prevents the formation of scale deposits on surfaces. Additionally, this product presents some degreasing properties that contribute to its efficacy as detergent and disinfectant.

## INSTRUCTIONS OF USE

**MIDA SAN 325 DA** is used at concentrations between 0,5-3% (v/v) at a temperature between 20-40°C depending on the soiling on the surfaces to be treated, with a contact time of at least 15 min.

Rinse thoroughly after use and ensure that all product residues and soil particles are removed.

## PRODUCT CHARACTERISTICS

Main ingredients	Lactic acid, anionic and non-ionic surfactants, solvent
Visual aspect	Clear liquid
Colour	None
Odour	Characteristic of the product
pH (1%)	± 2.2
Density	± 1.09 kg/L
Solubility	Miscible in water in all proportions

The values shown in the table do not constitute technical specifications

### MATERIAL COMPATIBILITY

When used according to the recommended instructions, **MIDA SAN 325 DA** can be used on materials commonly used in the food industry, with the exception of light alloys and soft metals like aluminum.

In case of uncertainty we recommend to evaluate the materials before any prolonged use

### ENVIRONMENT

**MIDA SAN 325 DA** does not contain any chlorine and hence there is no risk of the formation of organic adsorbable halogens (AOX).

**MIDA SAN 325 DA** complies with the European Union regulation EU648/2004.

### SAFETY

**MIDA SAN 325 DA** is classified as corrosive.

Hazard classification (CLP):     H314 – Causes severe skin burns and eye damage  
  H317 – May cause an allergic skin reaction

Do not mix with alkali or any other product.

Please consult the MSDS and follow the guidance for handling and disposal.

### STORAGE

Store the product sealed in its original packaging between 5 and 35°C and prevent any leakage of product.

More detailed recommendations are available in the Safety section 7

### PACKAGING

**MIDA SAN 325 DA** can be available in CAN, DRUM and IBC.
