PHAGO'RUB GEL SPS

Special for Sensitive Skin

Application

PHAGO'RUB GEL SPS is intended for the hygienic surgery-related disinfection of hands, by rubbing: an alternative to simple hand-washing for hygienic purposes, in the absence of a water-supply point, or for repeated use, before carrying out an activity requiring asepsis, etc.

Constituents

- ✓ Ethanol (CAS No. 64-17-5): 72% m/m
- ✓ Hydrating and softening glycerin
- ✓ Myristic alcohol (for emollient properties)
- ✓ Gelling agent
- ✓ No phenoxyethanol, colouring matter, scent or parabens

Organoleptic and physical-chemical characteristics

- ✓ Appearance: gel
- ✓ Colour: colourless
- ✓ Odour: alcoholic
- ✓ pH (of neat product) at 20°C: 8.0 ± 0.5
- ✓ Density at 20°C (g/ml): 0.868 ± 0.005

How to use

Ready-to-use **PHAGO'RUB GEL SPS** is for application only to skin that is healthy, clean and dry.

Hygienic disinfection:

- ✓ Fingernails must be short and unpainted; sleeves short or rolled up.
- ✓ Pour 3 ml of **PHAGO'RUB GEL SPS** into the palm of the hand.
- ✓ Rub the hands and wrists together for at least 15 seconds, following the standard procedure.
- ✓ Application of the gel must ensure the hands acquire a coating of the gel.

Surgery-related disinfection:

- ✓ Fingernails must be short and unpainted; sleeves short or rolled up.
- ✓ Pour 3 ml of **PHAGO'RUB GEL SPS** into the palm of the hand.
- ✓ Rub the hands, wrists, forearms and elbows until they are completely dry (≥ 45 secs) ;
- ✓ Pour 3 ml of **PHAGO'RUB GEL SPS** into the palm of the hand.
- ✓ Rub as far as the oversleeves, following the methods used for hygienic disinfection, until complete dryness is obtained (≥ 45 secs).

Precautions for use

- ✓ Exercise caution when using biocides. Before using the product, ensure you have read the label and other information supplied.
- ✓ Consult the instructions on the Safety Data Sheet, which is available from: www.quickfds.com
