# PHAGO'RUB SOLUTION SPS

Special for Sensitive Skin

## Application

**PHAGO'RUB SOLUTION SPS** is intended for the hygienic surgery-related disinfection of hands, by rubbing: an alternative to simple hand-washing for hygienic purposes, in the absence of a water-supply point, or for repeated use, before carrying out an activity requiring asepsis, etc.

## Constituents

- ✓ Ethanol (CAS No. 64-17-5): 72% m/m
- ✓ Hydrating and softening glycerin
- ✓ Myristic alcohol (for emollient properties)
- ✓ No phenoxyethanol, colouring matter, scent or Parabens

## Organoleptic and physical-chemical characteristics

- ✓ Appearance: SOLUTION
- ✓ Colour: colourless
- ✓ Odour: alcoholic
- ✓ pH (of neat product) at 20°C:  $8.0 \pm 0.5$
- ✓ Density at 20°C (g/ml):  $0.868 \pm 0.005$

## How to use

Ready-to-use **PHAGO'RUB SOLUTION SPS** is for application only to skin that is healthy, clean and dry.

### Hygienic disinfection:

- ✓ Fingernails must be short and unpainted; sleeves short or rolled up.
- ✓ Pour 3 ml of **PHAGO'RUB SOLUTION SPS** into the palm of the hand.
- ✓ Rub the hands and wrists together for at least 15 seconds, following the standard procedure.
- ✓ Application of the SOLUTION must ensure the hands acquire a coating of the SOLUTION.

### Surgery-related disinfection:

- ✓ Fingernails must be short and unpainted; sleeves short or rolled up.
- ✓ Pour 3 ml of **PHAGO'RUB SOLUTION SPS** into the palm of the hand.
